Senior Software Engineer

9971103870

Ghaziabad, UP, India

Full-Stack Software Engineer with over 8 years of experience building and deploying robust applications. Possessing a strong foundation in backend development with Node.js APIs and Google Cloud solutions, including designing scalable systems and optimizing data workflows. Actively expanding expertise in frontend development with ReactJS to deliver comprehensive solutions.

Work Experience

Application Development Sr Analyst

Mar 2021 - Present

Accenture | Noida

Currently, I work as a Senior Software Engineer specializing in Node.js API development and cloud solutions. As a Google Cloud Professional Data Engineer, I design scalable systems, optimize data workflows, and leverage cloud technologies to drive business performance.

Senior Software Engineer

Dec 2019 - Mar 2021

Affle (India) Limited | Gurugram

As a Senior Software Engineer, I specialized in building and optimizing Node.js applications for API development. I designed scalable solutions, ensured high performance, and collaborated with cross-functional teams to deliver robust backend services and drive project success.

Software Engineer

Apr 2016 - Sep 2019

Shine Web Solutions Pvt. Ltd. | Noida

As a Full Stack Developer, I leveraged Node.js and React.js to build robust and efficient backend APIs and dynamic user interfaces. I focused on delivering end-to-end solutions, collaborating effectively within teams to contribute to scalable, high-performance systems in dynamic environments, while continuously honing my coding skills across the full stack.

Core Skills

NodeJS, JavaScript, API Development, Express.js, React.JS, Database Integration (SQL/NoSQL), Version Control (Git), Debugging & Testing (Mocha, Chai, Jest), Authentication & Authorization (JWT, OAuth), Agile Methodologies, Google Cloud, Team Collaboration & Communication
